

One app to hire a cab and a driver

Ezi Drive is the only mobile app that facilitates both driver, as well as cab hire on a single platform, making it a one-stop shop for city travel solutions. It is also India's first ever online booking and automatic SMS confirmation facility provider for on-demand driver services.

Customers have multiple options on the platform to book their requirements - online, mobile app, auto IVR, and phone-booking. Ezi Drive also allows customers to give feedback and rate the driver at the end of a trip or ride. If the driver's rating drops below the standard set by the firm, then he could be relieved from the system, encouraging drivers to provide and maintain a high quality of service. The company has on-demand chauffeur aggregation model and sound knowledge of driver life cycle management that helps it to carry out its core services and overall processes smoothly in the back-end as well as on the road.

DH News Service

Ezi Drive has on-demand chauffeur aggregation model. It also allows customers to give feedback and rate the driver.
